Custom Printed Tape

Why use Custom Printed Tapes?

Custom Printed tape is an inexpensive marketing tool that simply turns every parcel, carton or package into a valuable form of advertising, brand recognition, identification and security. The Pomona Custom Printed Tape division (formerly the Henkel NZ Print business unit) provides high quality, sharply defined print that many national and international organisations entrust to reproduce valuable branding onto adhesive tape.

Pomona is an expert in the world of adhesive tape technology and in addition to high definition print we can also match the tapes backing material and adhesive qualities to provide the perfect product which will work beautifully for the intended application. Be it tape for freezer and chilled products, heavier bundled items, customised check out “SOLD” tape, barcoded vegetable bundling under wet conditions, security sealing courier bags, or simply securing different grades of cardboard cartons, Pomona has the perfect solution. Explore the opportunities to “personalise and seasonalise” out bound carton deliveries or promote special in house promotions or product launches – the options are endless.

Why use Pomona Labels on a Roll?

Custom printed labels on a roll are clean, efficient and cost effective and can be supplied in various widths, repeat lengths and, base colours. Each perforated label is laminated with clear plastic making a waterproof and durable label, ideally suited for outdoor and long term applications. With no messy release paper to dispose of, our labels make for clean and efficient application. At Pomona we offer the opportunity for customers to print custom designed labels, including highly detailed barcoded and QR coded labels. Our machines can perforate as little as 37mm to as big as 250mm, with any design of your choice.

About Us

Pomona Group Ltd was founded in 2004 by Charles Kilvington who has a wealth of industry knowledge dating back to 1986. From our 6000m² factory in Henderson West Auckland we provide a broad range of industrial and retail adhesive tape lines. Pomona is the New Zealand agent for many world leading tape brands including SICAD (Italy), and Lohmann (Germany). South Island distribution is managed from our distribution centre in central Christchurch.
